The stock market to-day was still intensely dull, and the making of quotations were again given up to the bearish traders, who were inclined to go slow, however. The expectation was that the bank statement would show a further reduction in the surplus receipts, and the hope was not disappointed, the deficit being now over \$1,000,000. The opening was dull, tame and heavy, and first prices were generally from 1s to 3s per cent. lower than last night's figures, but the changes in the first hour were very slight, and even the weak stocks showed no marked weakness. INSTRUCTING CITY TEACHERS.

Points Made by Superintendent Jones and Miss Cropsey-Increased Enrollment Expected.

The teachers assembled at the Highschool building yesterday morning, 320 strong, and listened to announcements and addresses by Superintendent Jones and Miss Cropsey, principal of the primary school. The burden of the Superintendent's remarks was to urge a higher and broader scholarship on the part of the teachers. He wants them to avoid the rut of the routine by becoming familiar with the subjects of grades higher than theirs, as well as the instruction that has preceded that given in their respective rooms. He desires also that the teachers should work for higher excellence in the penmanship of their pupils, and that a writing exercise in spelling should follow the regular writing lesson. Miss Cropsey spoke in an intructive and entertaining way of the meta-physics of primary teaching. Superintendent Jones says he never saw the teachers better organized or in better preparation for work. He expects an en-rollment of pupils reaching considerably over 16,000. The High-school enrollment last year of 1,025 is expected to be equalled this year. This enrollment is over 6 per cent. of the pupils, and far exceeds the attendance in other cities. At High School No. 1, Monday morning classes will assemble as follows: 12A and 12B grades in room B, 11A in A, 11B in C and all the 9B, except pupils taking Latin, in D. In the afternoon, 10A in A, 10B in C, 9A in B, and 9 BLatin pupils in D.

President T. M. Gruelle will organize a union of laundry girls at 10 o'clock to-day. The union will start out with between forty and fifty members.

The investigation of the charges against Ballard & Richards, proprietors of the broom factory in the Blind Institute, was continued last night before the board. Mr. Cullen alone was present, and Mr. Reinhold, attorney for the prosecution, objected to going on with the case unless a quorum or two members of the board be present. Mr. Cullen decided that as the other members could not be on hand for some days, and as the charges reflect so severely upon the institution, that further delay would be unjustifiable. Mr. Reinhold filed a written protest, and the examination of witnesses began, Mr. Henry Spaan conducting the defense. The witnesses were five in number, including Charles Avery, who is one of those accuse of using the "foul, indecent and profane" language before the blind students in the factory. The testimony constituted a strenuous denial of these charges, as well as a denial of neglect of duty upon the part of Mr. Ballard, as teacher of broom-making. The case was continued till Monday night. in order to give Mr. Reinhold a chance to bring forward his witnesses.
